

## BETTER WEATHER IS BUSINESS AID

Christmas is a time when we let logic and reason slip quietly from our scheme of things and give free rein to our nobler impulses. It is a time when our better natures rule our thoughts and influence our deeds, when we conform more closely to the Divine pattern in the mind of the Creator when He gave us our places in the world of men.

Often in the course of the year, during the thoughtful moments that force their way into the lives of even the most preoccupied of men women, we envision ourselves as creatures of finer clay and greater sublimity of soul and spirit than we are in reality. During the Christmas season we strive seriously to attain our own exalted ideals.

We are thoughtful of the poor and our sympathy assumes practical form. Children become a part of our very hearts. Our good will and kindness are reflected toward all with whom we come in contact and even toward strangers. We strain the realities a little, act as if we had more of the world's goods than we have, give more than we can afford. For this brief interlude, snatched from a year crowded with life's trials, we are the kind of people we would like to be, unselfish, thoughtful and kind.

In order that we may understand that this is so, it is necessary that we go back to the beginning to the night foretold by the prophet of old when he said: "The people that walked in darkness have seen a great light."

Unless we take the road to Bethlehem and live for a while in spirit with Mary and Joseph as they watched with eyes of love the child that lay in the manger, warmed by the breath of kine, Christmas, for all its music, its tinsel and its lights, will not mean what it ought.

Unless our hearts are attuned to those of the simple shepherds and the wise men who came from the East to worship at the cradle of a child, Christmas will be nothing more than a holiday whose significance is limited to freedom from the ordinary labors and responsibilities of the day.

On Christmas there should come to us, if our hearts are well disposed, the realization that not riches but generosity, not conquest but kindness not greatness but love, not the dust that rises from the road but the star that shines from the clear skies above is the real value of life.

The oft echoed phrase, "Merry Christmas," describes in two words the spirit of this day of days. It is the holiday of happiness and sweetness. It is a day that stirs child nature to the utmost glee, and that sets the old-timers to performing stunts they would regard as undignified on 364 days. Somehow Christmas makes all the world young, and the homes full of cheer and brightness.

Never such a scene of merriment as when the kids greet the lighted Christmas tree, or when they tear down stairs before daylight to see what old Santa has put into their bulging stockings. Their shouts of joy ring through the house.

Then when the old-folks play kid tricks on each other, and laugh at the tops of their voices, you would never think there was a trouble left in the world. All the cares of life and work seem to fade out.

It must be that when people cease striving for themselves, and begin to think how they can make somebody else happy the cares roll off their backs.

It is often remarked that there is no longer any chance for a young man in business. That point of view fails to note all the imperfect work that is now being done in the world. A large part of the world's workers go through their jobs in an indifferent way. They are only to draw their pay and do as little work as possible.

The prevalence of that spirit create wide opportunities for people who have energy and ambition. When they show those qualities, they impress people so favorably that they can always get more work.

## DERRICK CRASH IS FATAL TO TWO

### DRILLERS DIE RED BANK RIG

Two men lost their lives Sunday night at the rig of the Red Bank Oil Company 12 miles south of Rockdale when an elevator descended from the derrick top and crushed their skulls.

The dead are: Charles Farris and Bill Haelbig, both of Rockdale. Both men were employed on the floor setting casing when the accident occurred.

F. Haelbig, a brother of Bill, looked on powerless to prevent the death of the men as the elevator crashed down from the crown block.

The well is the No. 1 deep test of the Red Bank Oil Company on the Gramm farm. The well is down 6236 feet and approximately 4000 feet of casing had been set when the accident occurred.

H. H. Coffield of Coffield & Lanning, drill contractors in charge of operations, said the accident was unavoidable, and that the men were unable to get out of the way of the descending elevator. F. Haelbig who witnessed the accident had time only for a shout of warning to the men.

Haelbig survived by his widow and three children, was buried Monday afternoon in Salty cemetery. Funeral services for Farris were held Tuesday in Rockdale. He is survived by his mother, widow and three children.

## YOEMEN ARE REGIONAL CHAMPS

### WE SUGGEST "YOE BOWL"

Suggestions often are far reaching in their ultimate attainments. It is with the hope of finding listening ears that we offer this one, believing that it will enhance our own community and find instant appreciation in others.

The Herald suggests "The Yoemen Bowl" looking to a game on New Year's Day to be played for the benefit of the Community Chest. This should be made an annual event, the Yoemen to play by invitation the best team in the district or out of the district as developments may decide. Interscholastic rules, a matter of detail, we hope may be elastic enough to permit this aid to charity.

We believe that an annual football classic of this nature would be widely

patronized and after a season or so become an event toward which all teams would look at the close of the season.

The games could be alternated between regular teams of the districts and all stars from over the State as circumstances warranted. Admission charges should be made in proportion to the need for aiding the chest funds of the cities competing in the game. Each city should share equally in the profits of the game after all expenses are deducted.

This suggestion we leave with those in authority for we believe no public favor need be further cultivated.

The Publisher.

### ODFELLOWS BEATEN IN SEASON'S FINALE

The Yoemen are regional champions for the first time in the history of the city.

It was an easy victory for them Friday night under a frosty sky as they ran up a score of 19 points against the Odd Fellows from Corsicana and at the same time kept their goal inviolate in their first regional contest.

Once the snappy team from the Home got the ball on the 1 yard line when a pass followed by a line buck put it on the 6 and Yoemen drew 5 yard penalty. Coach Wood made two substitutions and drew the penalty. On the first play Peck broke through and tossed Smith for a 10 yard loss. That broke up the threat as on the next play a pass over the goal was incomplete.

Joe McLean scored the first touchdown on the east goal from the 15 yard line. Dero Underwood in the second quarter took a lateral from McLean and raced 30 yards for the second score of the game and Turner kicked goal.

In the third quarter Turner scored on a line play from the one yard line. The Yoemen had marched the ball down the field and made a first down on the Odd Fellows one yard line. A line plunge gave them the last six points they were to score in their high school careers.

On the whole it was a good game and the Odd Fellows though outclassed put up a game fight and made it a good regional game.

The curtain was rung down on the 1936 Yoemen. They won the district, bi-district and the regional. This is the top. Coach L. C. Wood thus led what at the beginning of the season was the poorest Yoemen team in years to the highest point in Class B competition.

### PRESBYTERIANS TO HAVE XMAS PROGRAM

Christmas services at the Presbyterian church have been announced by Rev. O. C. Acree, pastor.

The program begins in Sunday School at 9:45 on Sunday. At the 11 o'clock preaching hour a meditation sermon will be delivered by the pastor. At night anthems and yuletide hymns will be sung with Mrs. W. T. Heffley directing the program.

The annual Christmas offering for aged ministers and others who receive aid from the church will be taken.

On Wednesday evening at 7 o'clock a Christmas tree program will be held for the Sunday School with Mrs. Meta McCown in charge. This program will be held in the basement of the church.

## HOPES RISE WITH SUN

With Christmas more than a week away the city was far advanced in its anticipation of the holidays.

Chief among the cheering events of the week was the return of sunshine. Weather conditions were more hopeful and this brought better spirits to shoppers and to merchants alike. If the remaining days of the buying season are fair a large volume of business was looked for in Cameron.

Decorations are in evidence everywhere. Churches were planning their services for the holidays. Students were returning home for the holidays and family circles were once again uniting for an observance of Christmas. On the whole the prospect is a happy one.

Business for the year has been above normal, using the depression age as a gauge. Production on the farms was below average and this fact was accounting for a slow up in business. Subsidies from the government were yet to come and on the whole it was believed conditions would be about normal.

A factor more to be reckoned with immediately is the weather. Continued rain through November brought the business barometer to the lowest level in years. Hopes are going up with the sun and there is a better spirit in the air.

### "Millionaire Beggar"

#### Is Given Jail Term

Toronto, Ont.—Joe Bevan, Toronto's "millionaire beggar," is in jail again.

Bevan, who has money in various savings banks in the city, and who always carries a good supply of cash, has been arrested scores of times for begging in the last 20 years.

Until a short time ago Bevan always paid his fine by check, but the courts have stopped giving him an alternative to a jail sentence in the way of a fine. This time he got three months.

### FEDERAL MEN MAKE CLEANUP ON CRIME

#### Coast-to-Coast Campaign Is a Tremendous Success.

Washington. — The treasury department's law enforcement agencies struck at crime recently in a coast to coast "cleanup." The sudden offensive resulted in the arrests of 1,068 alleged violators of narcotics, liquor, customs, and counterfeiting laws.

Harold N. Graves, co-ordinator of the treasury department enforcement agencies, said this major offensive, the first since March, 1935, would have a good "psychological effect" and act as a "strong deterrent" to crime.

In the narcotics and liquor divisions, 2,500 agents closed in on violators. Texas and California were the centers of smuggling activities. However, 26 persons were arrested in Richmond, Va., which was described by authorities as a center of a thriving narcotics trade. B. M. Martin, southeastern narcotics supervisor stated.

"The ease with which dope is purchased in Richmond, has caused a great influx of addicts whose petty thievery costs the local merchants at least \$50,000 annually."

Alcohol tax agents seized 294 illicit stills and over 5,000 gallons of liquor and property valued at \$75,000.

Co-ordinator Graves explained, "It was probable that most of those taken would have been arrested during the regular day-by-day activities of treasury agents, but that it was preferable to conduct big enforcement drives occasionally in order that suspects might be taken by surprise, with no opportunity to flee to 'hide outs'. The drive was planned more than a month ago. We have scouted all suspected localities in the field, and used coast guard amphibian planes to spot stills. We are very well satisfied."

### Woman Uses Unique Way to Get Money for Divorce

Coshocton, O.—In order to get a divorce, a woman needs money. Mrs. Edith Buckmaster West, thirty-year old mother, confessed to police authorities of a unique way she, her brother, Albert, and Wayne and Norman Hartley, all of Coshocton, O., planned to get money and keep within the matrimonial laws.

They removed bolts from the Pennsylvania railroad tracks in order to wreck a train. They planned then to rob the passengers.

When the train passed safely over the loose rails, the three men and woman removed more bolts from a nearby train bridge. Nothing happened so they gave up the job and sold the bolts in Coshocton.

Mrs. West wanted the money to divorce her husband, Charlie, by whom she had a four months old baby, so she could marry Wayne Hartley.

Railroad officials said a disaster would have resulted on the bridge had not a farmer noticed the bolts missing and notified track walkers.

### Physicians Take Heed

#### From Groaning Laborer

Trieste, Italy.—Physicians operated upon Mario Fusco, forty-seven-year-old laborer, for an acute pain in his stomach and found:

Thirteen keys, one can opener, three cigar holders, thirteen pencils, five fountain pens, one spoon, two pencil holders, four penknives, one safety razor holder, a few needles, a piece of glass and five coins.

Fusco's only anxiety was for his money, which was returned when he promised he would not swallow it again.

### Hound's Baying Weird

Lorain, Ohio.—Patrolman H. C. Gawn was cruising when his radio crackled out a call "woman being murdered." Gawn opened his siren, pulled his pistol from its holster and rushed to the scene. All he found was a hound baying at the moon and a frightened woman next door, who said, "It sounded to me like a woman being killed."

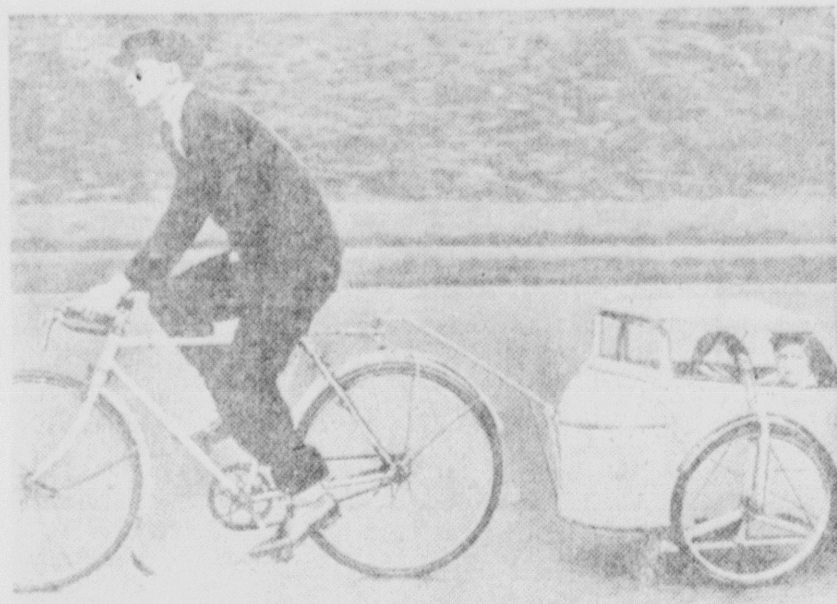

### Feast Traps Snakes

Redding, Calif. — Bullsnares are having a hard time at the city farm here where pheasants are grown. They crawl sufficiently through the wire mesh fence to swallow a pheasant, but after the latter is safely inside they are unable to back out.

### Steal Church Hymnals

Toledo.—Fifty hymn books, valued at \$10, were taken from the Church of God, James Lewis, caretaker, reported to the sheriff's office.

### Herds May Now Be Tested For Bangs Disease

All livestock growers who are interested in having their herds tested for Bangs Disease by the Bureau of Animal Industry should contact the County Agent, who has agreement forms that may be signed by the applicant for such test. These tests are made by the Government at no cost to the owner of the stock, except that the owner has to pen the animals for convenience in making the test, and clean and disinfect his premises after each test.

There is a binding agreement between the Government and the owner to co-operate with each other and work together in eliminating any reactors to the disease. Condemed animals are paid for at an appraised value, except in the case of unreg-

istered bulls marketed in accordance with the agreement. Animals are paid for in the following manner: such condemned animals are marketed, and the market price is supplemented so as to equal the appraised value of the animal condemned. In no case will this supplementary payment exceed \$25 for a grade animal or \$50 for a registered, full-breed animal.

Any farmer interested in these tests may secure further information by writing to the County Agent or the Assistant in Agricultural Conservation of Milam County.

### Cheese Rind for Birds

In a recent discussion of the best way of feeding birds in the garden one experimenter put forward the rind of a tilton cheese as the supreme Christmas fare! Birds of many sorts especially the robin, are greedily fond of it. They have a desire for fat and the cheese provides this in association with other virtues. If we feed birds for the sake of watching them as well as comforting them, the rind, if preserved in more or less unbroken form, has the advantage that it cannot be carried away and attracts five or six species of birds if no more.—London Spectator.

# FORD

## advances into 1937 with the LOWEST PRICE IN YEARS and new operating economy

THE ADDITION of a new 60-horsepower engine to the Ford line for 1937 brings you a new, low price and gives you a choice of two V-type 8-cylinder engines, 85 horsepower for maximum performance, 60 horsepower for maximum economy.

The 60-horsepower V-8 engine was originally developed for use in England and France, where fuel costs are high. It has been proven there for two years with brilliant success. Now, brought to America, it

creates an entirely new standard of modern motoring economy!

The "60" engine, available in five body types, is built in exactly the same body size and wheelbase — to the same advanced design — with the same comfort and convenience as the "85." And it delivers V-8 smoothness at speeds up to 70 miles an hour.

Two engine sizes—but only one car and one purpose—to give you more miles and more satisfaction for your money in 1937.

## Yet Christmas Comes But Once a Year

There's a friendly air at Christmas... a spirit that we enjoy for a month before the holiday, for perhaps a week after. There's time, somehow, for a cheery greeting in the midst of rush... time to think of other people.

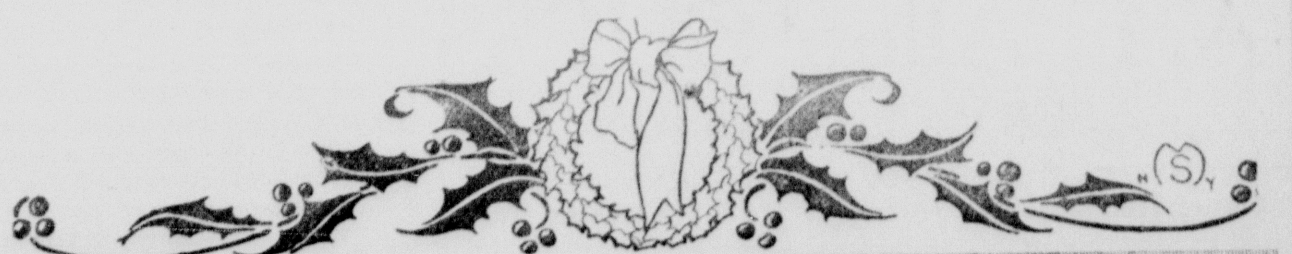

It's the spirit the First National likes; likes so well, in fact, that it's a part of our year around activity. There's always time for friendly discussions, always a cheery greeting for the customers of this DIFFERENT bank.

Christmas may come but once a year, but the spirit of the holiday stays on for twelve months at Cameron's friendliest bank!

## Introduces New Home Agent

Miss Dorothy Porter, new Home Demonstration Agent for Milan County, is introduced in a letter to Judge Jeff T. Kemp from Oscar C. Dancy, county Judge of Cameron County at Brownsville.

Miss Bertha Fae Strange was transferred to Hawaiian Islands.

The letter in part is as follows: In Miss Dorothy Porter, you have a young lady, highly educated, very diplomatic and one who knows her job, and there's not a lazy bone in her hide. When she came here a few years ago, I had some misgivings because she followed Miss Kate Adele Hill, who was promoted to a big fine job at College Station, I just didn't think anyone could fill Miss Hill's

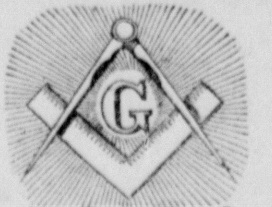

place, she, however, made the grade 100 per cent in every respect and I never heard one complaint of her work. She left of her own accord; I don't blame her in the least, I just was not salesman enough to get her the decent salary she so eminently deserved.

## Lo! The Poor Athletes

A very sorrowful sight it is to see  
an athlete, a movie actor, or any one  
else who has achieved fame, let it go  
to his head, and then find that he has  
been forgotten by the world. The  
stunned expression and the lagging  
step are characteristic of this type  
of person, and few ever snap out of it.

In this age of heroes and heroines,  
it is very common to see an "ex-cele-  
brity" on a lecture tour or in a bene-  
fit performance. The crowd only  
wonders: "Where have I seen this  
fellow before?"

If you are the "big frog" of your  
pond right now, remember that the  
world soon forgets its heroes.

## Heard In The Showers

C. Heath—"Not going, thank good-  
ness!"

G. Mode—"The world is flat."  
Harry Hughes—"I-d'ont know the play."

L. Poole—"Rough 'em—"  
H. Gerick—"Absolutely, dat's right!"

Paul Stach—"Listen to this lie—"  
Floyd Hatch—"At least I can dress

faster than most of them—"  
Dero Underwood—"Whatsa matta

withyo honey?"

Luie Truner—"has a new hat."  
Earl Peck—"out close to Hoyte."

Joe McLean—"Well, I beat 'em all  
right."

H. Chambers—"I hope Heath breaks  
his leg."

Elvin Wiley—"and my friend.  
Miss Witherspoon—"

L. C. Angel—"nothing."  
Robert Masopust—"I wish I'd a

clipped him."

J. Cammer—"Hooray, no detention  
today."

Harry Kennon—"In California we  
did it this way—"

T. Moore—"an invitation from  
Rosebud—"

Clifford Guess—"I don't feel like  
playing."

W. Lange—"Me and that girl can  
really dance"

Coach Wood—"we have nothing  
but praise for you."

Coach Bennett—"up at Baylor."

## Don't Forget

## The Coaches

One of the most difficult jobs in  
the world is that of a football coach;  
but like all other jobs, it can be and  
sometimes is, neglected and only half  
done. Coaching boys to be football  
players is not a coach's only worry.  
His task is to see that his youthful  
aspirants live cleanly, eat good foods,  
and pass their courses in school work.

We believe that we are fortunate  
to work under the direction of Mr.  
Wood, Mr. Bennett, Mr. Ruggles, and  
Miss Young. When we interviewed  
these coaches last week, they were  
too modest to make any comment on  
their work. So in paying tribute to  
the athletes of Yoe High School, we  
would not forget those who are be-  
hind our teams, Coaches Wood, Ben-  
nett, Ruggles and Young.

Library Staff and  
Dramatic Club

## Entertained Sat.

Miss LaNelle Love entertained the  
library staff and the Dramatic Club  
at Mrs. J. Coy William's home Satur-  
day. The Dramatic Club were in  
charge of stunts and dramatized tit-  
les of popular songs. Mrs. Williams  
told a beautiful Christmas story.

The hostess served refreshments at  
the close of the party. Candy canes  
decorated the Christmas tree on the  
dining table. Those present, were:  
Charles Ed Henley, Mary Frances  
White, Virginia Weems, Nell Williams  
Ella Bess Haygood, Woodrow Lange,  
Alphonse Kocurek, George Williams,  
Billy Cooper, Mary Anne Green,  
Trent Nabours, Mary Louise LaCook,

## Basket Ball Play

## Season Opens

Marking time until the regional-  
bound Yoemen football team has com-  
pleted its schedule, the basketball  
team has been practicing every after-  
noon in an effort to be ready for the  
opening of the cage season here  
Thursday, December 10. A very in-  
teresting pre-Xmas schedule has been  
arranged for the team by Mr. Rug-  
gles. The boys are working on a new  
system of offensive basketball and it  
will require a good bit of time to  
perfect it. The following boys have  
been showing to a good advantage in  
practice: Blankenship, Joe Walzel,  
Kennedy, Gans and Barrett as for-  
wards; Groppell, Goodwin and Clark  
at center, and Birelbach, Atkinson,  
Krall, Baldwin, Griswold and Allen at  
guards.

## Girl's Athletics

Girls' athletic work in Yoe High  
School, often does not receive the pub-  
lic attention devoted to the boys'  
work, but the work of this department  
is none the less important.

Besides the daily classes on Mon-  
day, Tuesday, Thursday and Friday,  
the girls have the gym every Wednes-  
day afternoon after school for practice  
in volley ball, deck tennis, handball,  
and ping-pong.

The Wednesday class period is  
health period. The students are now  
studying weights and calories. Miss  
Young is seeking to correct under-  
weight or overweight by having each  
student makes out 9 menus based on  
the calories in the food.

## The Green Christmas Tree

In order to keep the tree green all  
the time it is on display, cut a small  
piece from the base of the tree so that  
a new surface is exposed. Then set  
the tree in its support with a small  
pan containing water in the center so

that the base of the tree is resting  
in the water all the time. Add an  
aspirin tablet to the water and pre-  
pare to have a flourishing tree this  
year.

## FARMERS ARE ASKED TO RETURN FORMS

According to County Agent George Banzhaf, compliance work on land-measuring under the 1936 Soil Conservation Program is nearing completion. He estimates that there are only approximately 75 farms in Milam County not measured as of December 7. It is hoped that all farms will be measured by December 15. Practically all measurements of farms already measured and approved by the producer have been mailed to College Station where they will be checked, and the results of the findings by the State Board will be reported to the County Agent.

After this information is returned to the County Office, there will be other forms to be signed and returned to the State Office before any payments will be made on the 1936 Program. Therefore, it is barely possible that this county will receive any benefit payments before the first of the year. This office has experienced some delay on the part of the producers failing to reply to statements of their measured acres which have been mailed to them. Farmers can greatly assist this office and help to speed up work in the county by promptly replying to correspondence from the County Office. Most of the necessary corrections can be made by mail, thus

saving producers needless trips to the County Office. However, we realize that in the case of some errors, it will be better for the producer to come in and assist us in making the necessary corrections.

Within the near future, every farmer who signed a Work Sheet as a share tenant or owner-operator will receive forms requesting a list of all tenants who worked a crop on his

The total acreage for each crop for the entire was mailed to the producer who signed the Work Sheet. It will be necessary that these forms, which require the signature of each tenant on the farm, be filled out by the operator and the tenant. These forms cannot be filled out in the County Office. However, we shall be glad to give information or assistance that we are able to in connection with this work. This information must

## Banks Have Confidence to Loan

—when business men have confidence to borrow.

THIS bank is in a strong position to make loans whenever individual business plans and related business conditions warrant them.

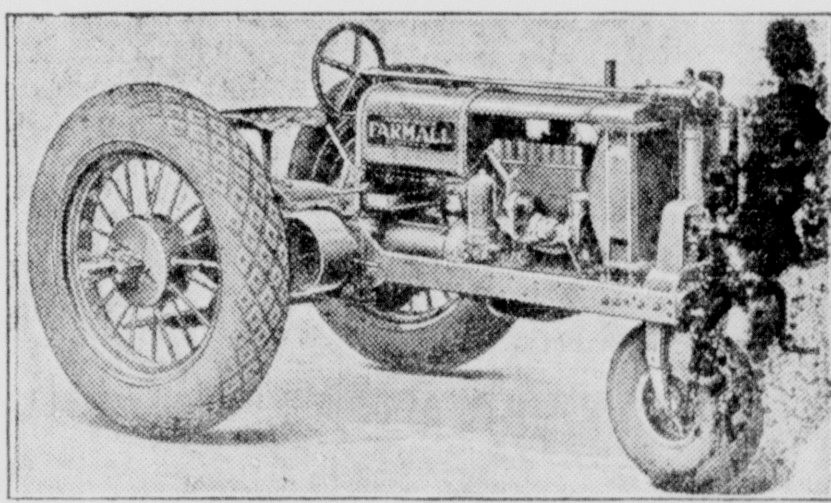

From many quarters come reports of improvements in general business conditions for the nation as a whole. As such gains become more prevalent and firmly established the opportunities for successful undertakings will increase. At the beginning of such a stage in business it is important for business men to take stock of the future.

This bank is continually studying national and local business information and is always ready to discuss plans and conditions with its business neighbors. *If it develops that a loan is justified, we will make the loan.*

## BAPTIST CHURCH

## Vote on New Educational Building

On Sunday Jan. 10, 1937, our church will vote whether we will go into a campaign to erect an Educational Building. We want the membership to be thoroughly informed on every angle of this proposition. If we build a building he will impress the hearty sacrificial efforts of the entire membership. If the members of the church do not want to build a building we want that evidenced by the vote. We want only to do God's will in this matter. If God wants us to build a building he will impress the people. If not we would be foolish to undertake to build. Pray about it and vote as God impresses you.

## Christmas Pageant

Sunday night December 20th, a Christmas pageant will be presented in our church under the direction of Mrs. Eber Flinn and Mrs. Francis Cox. Rehearsals for this pageant are being held. Tell your friends about it and invite them to the church to witness this beautiful Christmas story.

## Student Night

On Sunday night December 27th we will have a special service in honor of our church members who are home from our colleges for the holidays. Mr. E. E. Lee of Dallas, who is one of the Southwide B. T. U. men, will be the speaker on that occasion. Mr. Lee is one of the most popular speakers before young people's gatherings in the United States. Our Senior B. Y. P. ## Tabby Brought Kittens Into Christmas Manger

The celebration with the Christmas tree that touched the ceiling and had a manger beneath it, was over, and a row of little stockings were hanging for Santa Claus. Mother had just tucked the happy children into bed and by the soft glow of the nursery Christmas tree was singing Christmas carols to them.

Father was about to turn off the lights below and lock the door for the evening when he heard a faint "meow" from the cold darkness without. Upon opening the door he saw a forlorn, bedraggled tabby cat almost frozen in the Christmas snow.

"Why, you poor creature," spoke father tenderly, "come in this very minute." For some moments father was busy making tabby comfortable. He found some milk which he warmed, and plenty of holiday food. He served kitty with generous portions of Christmas feast and then provided a soft bed in the corner, with a cushion from his own easy chair. Tabby showed her appreciation by purring and purring louder than father had ever heard a cat purr before.

Satisfied and delighted with his Christmas guest, father retired, grinning and wondering what the family would say in the morning.

Christmas morning the happy family entered the living room—the children rushing ahead, bearing their bulging stockings and shouting with laughter.

"Oh, look at the manger!" cried mother with surprise.

"Merry Christmas!" retorted father, trying to keep from bursting out laughing.

Tabby had selected the soft straw

of the manger as a fitting birthplace for her litter of Christmas kittens.—Alice B. Palmer.

## Good King Wenceslas

Good King Wenceslas, immortalized in the well-known carol, was really a Bohemian prince who died in A. D. 935. His name should properly be spelt "Wenceslaus." He was famous for his great kindness to the poor and needy. When, in September A. D. 935 he was killed by his brother, Beleslav, the people of the county were heartbroken. He is still regarded as their patron saint.—Tit-Bits Magazine.

## November Largest Chevrolet Month

Chevrolet production for November exceeded that of any previous November in the 25-year history of the company, summaries of official figures revealed this week, with a total of 112,229 cars distributed from the company's factories.

Domestic production for the month was 95,022; export production, 12,853; and Canadian production, 4,354. The

total was 3,353 more cars than the 108,876 produced in November, 1935, which was the previous record.

At the same time, company officials said, unfilled orders for the new Chevrolet are running far ahead of last year, with 96,084 customers' orders still to be met.

Factory production schedules have been stepped up to more than 6,000 cars a day in an effort to keep up with popular demand, with plants working at capacity.

Here he is—the pride and joy of the household. Full of vim and vigor, ready at all times to go places and do things. Moreover, he does—and you wouldn't want him to change the least bit. Like all children, he is a natural born explorer. The living room . . . dining room . . . bed room . . . kitchen—this is his limited world during the indoor winter season and he makes the best of it.

He doesn't know that the toy soldiers left on the other side of that closed door that leads to the unheated living room mark a cold and health-threatening spot. He hasn't learned that a sudden change of temperature, such as going from a heated room into a cold one, makes it easy for him to "catch cold." If he knew these things he would urge you to give him the protection of healthfully warm temperatures in every room this winter.

### The Need of Santa Claus

"If there were no God it would be necessary to invent him," said a well-known writer. There is no Santa Claus in our grown-up world, but we have found we need him as one of the most beloved characters in the world of childhood, which is peopled with legends of the child's own making. The enchanting belief in Santa and his reindeer, his paunch and his pack filled with toys will never hurt a child. The cynical grown-ups, who have too completely lost their belief in him and his kind, need your help.

## Buggy Worst Auto as Vehicles Collide

Marysville, O.—For once the horse and buggy has proved its supremacy over the automobile. In a collision between a horse and buggy driven by Al Yoder and a 1929 coupe, driven by Irwin Yoder, near Plain city, the automobile came out second best. The buggy suffered only a damaged wheel, but the automobile, whose driver suffered arm lacerations, was almost a total wreck.

## ROBLES KIDNAPING CASE IS UNSOLVED

No Trace Found of Girl Abducted in April, 1934.

Tucson, Ariz.—The abduction of June Robles here in April, 1934, is the only unsolved kidnaping case of recent times on the records of J. Edgar Hoover's G-men.

Although Hoover announced a year ago, that the case was solved, Arizona officials knew nothing about its solution. No one has been tried for the crime.

The Phoenix Gazette announced recently that federal agents were about to clear up the kidnaping and that the case will be presented to a federal grand jury at Tucson sometime in October.

Frank E. Flynn, United States district attorney for Arizona declined to deny or affirm the reports, but announced he was going to Tucson to prepare for the jury session.

On April 25, 1934, little six-year-old June Robles climbed into a black sedan which met her as she went to school.

Police officials scoured the vicinity of Tucson, but were unable to find a trace of the girl or her captors. Later, Goyo Estrada, a eleven-year-old boy, was given 25 cents by a strange man to deliver an extortion letter to the little girl's father. The kidnapers demanded \$15,000. A rendezvous was arranged for the delivery of the money, but the kidnapers failed to appear.

Nineteen days after the abduction, Gov. Moeur of Arizona received a letter from Chicago, which told where the girl was hidden. She was found chained in a coffinlike box which was sunk into the sand of the Arizona desert.

Oscar H. Robson, former Tucson nightclub owner, was arrested and charged with extortion. But he was never tried. In the recent announcement by the Phoenix Gazette, no mention was made of Robson in connection with the grand jury session.

## Literary "Raffles" Aids

### Police to Recover Loot

Newark, N. J.—The literary "Raffles," thirty-two-year-old Stanley Weymes, joined with the police of Newark, N. J., to recover hundreds of rare and valuable books which he confessed stealing from the public libraries of the nation.

Weymes was given only a one year suspended sentence, after pleading guilty to stealing two valuable volumes from the Newark library, at the request of G. William Berquist, investigator for the New York Public Library. Berquist will have the paroled thief in his custody. With his help, an investigation of book dealers' "fences" and several unsolved book thefts will be made.

"I can't steal any more," Weymes explained, "because every library in the country has my picture now."

"I've had to revise my psychology of crime to include a hackneyed conclusion—crime doesn't pay. I will help get all the books back."

Police said that Weymes professed ignorance of the exact value of books he had taken, although his thefts were estimated at \$100,000. He maintained a regular itinerary, visiting libraries to steal valuable books.

## "Cockeyed" Rats Now Add to Problems of Treasury

Washington.—The question of rats and cockroaches is a matter of deep concern to the Treasury.

Chief Clerk Birgfeld of the Treasury says that the rats are so cockeyed that they will not go into traps set on the second floor of the old stone building at Fifteenth street and Pennsylvania avenue.

The cockroaches congregate chiefly in the Treasury's press room for no good reason. Somebody left a congressional directory out on his desk, and it was practically eaten up.

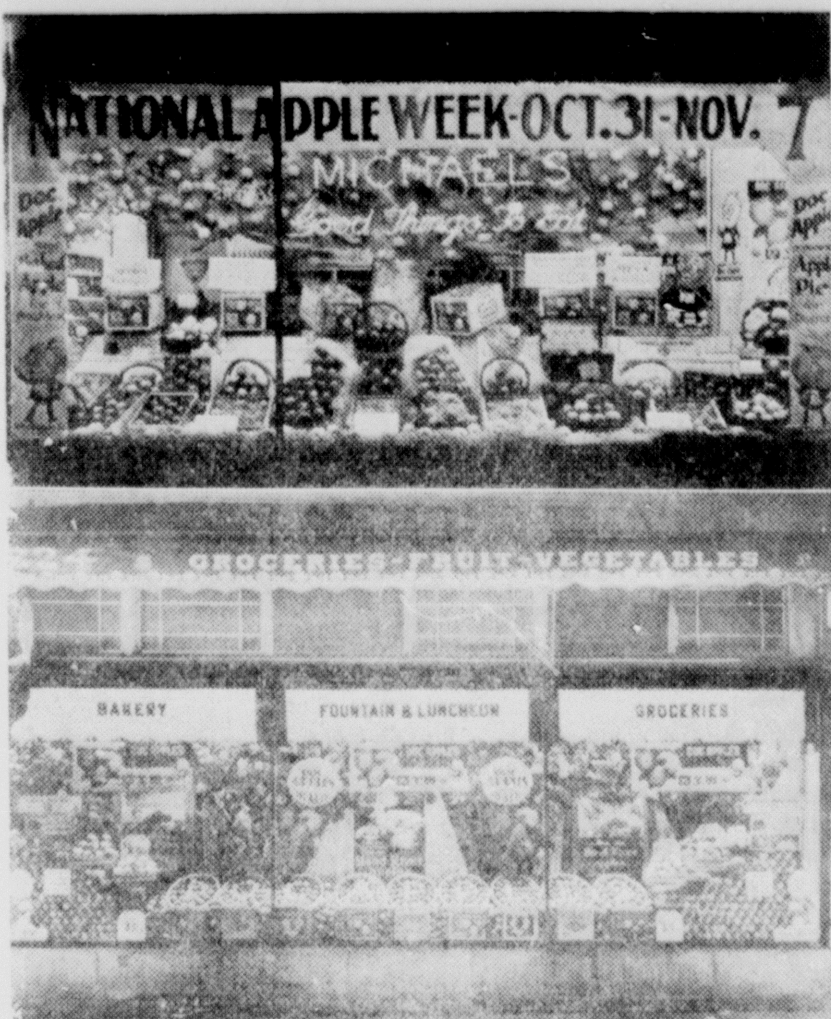

A proposal has been made that the United States adopt the British system of providing funds to feed cats, so that the rats might be caught. The Treasury has a small black cat, but it is not fed at the expense of the public.

## Doc Apple Prize Contest Windows

First prize in the Doc Apple National Window Display contest held as a feature of National Apple Week by Pacific Northwest Fruits, Inc., was won by Michael's of Spokane, Washington, according to announcement made today. Second prize went to Steindl's Devon-Estern Food Mart, Chicago, Ill., and the third prize to McChesney Miller, Glenn Ellyn, Ill.

Because the first prize, a trip to "Apple Land" was won by a Pacific Northwest firm, the winner graciously agreed that this trip be awarded to the winner of second prize and Michael's will receive the \$100 prize money offered for second place, instead. The winner of the third prize was awarded \$50 in cash.

Ten additional prizes of \$10 in cash were awarded respectively to Hillman's Pure Foods, Oak Park, Ill.; Cut Rate Fruit Stand, New Orleans, La.; Atlantic and Pacific, Dallas, Texas; Piggly Wiggly, Memphis, Tenn.; Fruitland, Milwaukee, Wis.; Holtman & Nelson, Minneapolis, Minn.; Safeway Store No. 2 Tyler, Texas; W. H. Alford Grocery, Atlanta, Ga.; Lawonn's Grocery, Milwaukee, Wis.; Silver's Grocery Dept., Montgomery, Ala.

The quality of the entries in this contest was remarkably high, according to the judges. The large number of stores which competed was evidence of the interest taken by fruit dealers over the entire nation. In 58 different cities there were local con-

tests held. Chicago alone had 458 displays. The number of stores entered varied with the size of the cities. Winners in the local contests were entered in the competition for the national prize and there were additional entries from 190 other cities where no regular local contests were conducted. There were a total of 7,308 displays entered in the entire Doc Apple contest.

The local displays were judged by judges selected in each city, who inspected the windows personally. The prize-winning windows were then photographed, and these photographs, together with those of entries from cities where no local contests were held, were assembled at the Pacific Northwest Fruits office and judged by a committee chosen from among the leading display men and advertising experts in the Pacific Northwest.

The judges were I. M. Baker, nation-timer; James Howell, manager Fruit Emporium; and Sol G. Levy, president, Benjamin Franklin Thrift Stores Inc., all of Seattle. Photographs of competing windows were numbered and arranged so that the judges could not know whose photographs they were judging. The first three national winners were the unanimous choice of the judges and their relative ratings were very close.

"I have never seen so much effort and such a remarkable response in any contest with which I have ever been connected," declared Mr. Levy. "Anyone in the trade can profit by looking over these displays. If there is a similar contest next year, you will not get me for a judge—I'll have my own stores entered in the contest."

From the standpoint both of the dealers and of Pacific Northwest Fruit members, the significant fact about this contest was that it sold apples. Practically every city where these contests were held reported

large increases in sales of fruit during that week. One important group of stores stated that its apple sales for the week of their display showed an increase of 425 per cent over the corresponding week of the previous year. Brokers and jobbers reported heavy movements of apples in the cities where stores were entered in the contest. While the contest rules required only that four boxes of apples of any of Doc Apple's Quality Brands be displayed, many stores reported using as many as 25 or 30 boxes and the average exceeded 10 boxes per display throughout the entire seven thousand stores in the contest.

In addition to the winners of prizes named above, the following were accorded honorable mention; Milam & Gray, Houston, Texas; Larandes Cash Grocery, Cuero, Texas; J. Kunz & Co., Louisville, Ky.; American Stores Co., Germantown, Penn.; Overton Park Sel-Pac Market, Memphis, Tenn.; Freadrach Bros., Lincoln, Neb.; Stock's Grocery, El Paso, Texas; J. ## Nervous, Weak Woman Soon All Right

"I had regular shaking spells from nervousness," writes Mrs. Cora Sanders, of Paragould, Ark. "I was all run-down and cramped at my time until I would have to go to bed. After my first bottle of Cardui, I was better. I kept taking Cardui and soon I was all right. The shaking quit and I did not cramp. I felt worlds better. I gave Cardui to my daughter who was in about the same condition and she was soon all right."

## "SCOTTY" OF DEATH VALLEY ONCE MORE JINGLES WITH GOLD

Picturesque Character Either Multimillionaire or Greatest of Jokers.

Los Angeles.—Death Valley Scotty, who is either the most mysterious multimillionaire in the world or else the world's foremost practical joker—and maybe both—blazed into Los Angeles, jingling with gold in the good old days.

Scotty is still just as mysterious as ever. He came from no one knows where and returned to the unknown—back to "somewhere in the hills," where, he says, lies a hidden Golconda.

Pockets bulging with \$1,000 bills, he announced with a grin that he had \$500,000 "on me," \$700,000 stacked up "back thar in them hills," and "plenty more where that came from."

For more than thirty years men have been risking their lives, sometimes losing them, in a vain effort to find a meaning of Scotty's phrase—"where that came from."

### Huge Sum Spent.

It is estimated that he has actually spent, or thrown away, a huge sum. His most spectacular splurge was the building of a \$3,000,000 "castle" in the very heart of Death Valley, a desolate region in southeastern California.

But what he came to town for, with \$500,000 "on me," was to buy a fresh string of mules. He got them and he drove away.

"You'll see some real gold when I get back here," he said. "I'm going to put some finishing touches on that castle."

The castle is as mysterious as Scotty himself. One rumor is that the subterranean passages radiating from its solid rock foundation are the entrances to the fabulous gold mine which he has talked about for years, but never exhibited to any known person.

Some years ago there was a story, started by Scotty himself though nobody could tell whether he was joking or not—to the effect that there never was a mine, but that Scotty had been "staked" to the vast sums he spent by his close friend and partner, A. M. Johnson, of Chicago. But while this tale had an apparent plausibility, it was later discredited like the rest of the legends, and the average man simply believed what he chose to believe, usually the story of the mine.

### No Sign of Smelter.

Yet sober business men point out that if so much gold had been taken from a mine, there ought to be records of the smelting; there ought to be great heaps of the residue; there ought to be ledger entries where the gold was changed to money; there ought to be records of machinery sales and transportation; there ought to be—

There ought to be such records—but who has ever seen them? So most people have listened as they would to a fairy tale, and with as little credulity.

Yet the fact remains that the money Scotty spent has always been real money. And so the old story of the mine constantly recurs, with new elaborations.

Recently it was said that the secret had been learned; that the castle was the mine entrance; that the "servants" were miners; that the "butler" was a mining engineer; that the installation of a "\$75,000 mechanical pipe organ" in the castle was not to soothe the soul of Scotty with music, but to drown out the sound of operations. It is—one of the stories.

### Sheriff's Fancy Turns

to Flowers and Mules

Decatur, Ga.—When Burly Sheriff Jake Hall isn't chasing criminals, he is more than likely on the trail of an antique—or admiring flowers, or fancying mules.

"Flowers," he says, "should be appreciated by everyone—especially in the present mechanical age. They soothe and have an uplifting influence."

"Collecting antiques and oddities is fun and an interest in them is stimulating to the imagination."

"Imagination helps us to understand the past and that is helpful to one in the present."

Of mules, Sheriff Hall says he just likes them and that keeping the animals is a hobby. Sometimes he has 100 or more in his stables.

The veteran officer lives in the sheriff's apartment at the De Kalb County jail, but spends most of his off-duty time on his 40-acre flower farm, "Dogwood." Thousands visit the farm annually.

Everything in the five-room sandstone house is unusual. It is furnished elaborately with silk-topped colonial beds, hand-carved mahogany tables, chairs and scores of fineries of the past, but the house is unoccupied, at least for the present. It is open to the public Sundays.

"I spend about everything I earn on the purchase of flowers, antiques and mules," says Hall. "I guess I'm just different."

### Salt Lake Navy Grows

Salt Lake City.—A building race between the Salt Lake county sheriff's office and the city police craft for rescue work on Great Salt Lake started recently, when the county appropriated \$500 for improving Sheriff S. Grant Young's "one boat navy."

## Home Gas Masks Tried Out by French

Not quite a peaceful home scene as mother and daughter, wearing gas masks, continue at their knitting during the recent rehearsal of air raid defenses in Paris. Candlelight served as their only means of illumination.

### Brings Down Hawk

Arena, Wis.—Thomas Bowden and his family, farmers near here, were at the breakfast table the other morning when they heard a great commotion in the barnyard, and rushing to the door, they saw a large hawk soaring with the chicken in its talons.

Frank Bowden grabbed a small rifle and although his target was high, fired as other members of the family jokingly remarked, "Fried chicken for dinner!" To their surprise, down came the hawk with its prey.

But the Bowdens didn't have fried chicken after all, for as the dead hawk hit the ground, the chicken scurried off unharmed.

## DOCTORS HALT ODD ANTIC OF NATURE

### Operation Stops Girl's Development Into Male.

Chicago. — How nature played one of its strange antics and started to change a Chicago girl into a man was disclosed by two physicians, Dr. William Saphir and Dr. Morris L. Parker.

This phenomena was stopped by an operation performed at the Michael Reese Hospital, the physicians state in their report of the unusual case in the journal of the American Medical association.

A normal girl again, the patient is being treated for the eradication of a few masculine characteristics of no importance, and can be married and rear a family like any other woman, Dr. Parker said yesterday in amplification of his scientific paper.

The girl, whom Dr. Parker refused to name, became his patient in June, 1935. She was fifteen years old, and her parents became alarmed as she suddenly took on masculine indications. Her voice began to change, hair grew on her face and she became obese.

The case was diagnosed by Dr. Saphir as a rare example of suprarenal virilism, indicating the presence of adrenal sex hormones in the ovaries.

Because the symptoms increased continuously, operation was decided upon. Exploration disclosed that all organs were in a perfect condition with the exception of the right ovary, which was enlarged.

After its removal examination showed the presence of a nest of fibrous adrenal tissue. After her convalescence the patient's masculine characteristics ceased developing.

### Try to Jump From Bridge

New York.—Thirty-three suicides and eight stunt-jumps from the George Washington bridge have been prevented by bridge police here since the structure was opened four and one-half years ago.

Despite this record, port authority police continue to find it necessary to maintain a constant lookout for people who want to leap 250 feet into the waters of the Hudson river.

Periodical activity of stunt performers in seeking to use the George Washington bridge as the theater for their acts has drawn a renewed warning from bridge officials.

"The person who leaps from the bridge is not only careless of his own life but he is a menace to people on craft beneath the bridge," J. E. Ramsey, general manager of the port authority, pointed out.

## Woman Calls Up Firemen to Kill Spider in Home

Kansas City.—After years of rescuing domestic animals and capturing fugitive birds for distressed owners, the fire department's queer-job roster received a new entry when Company No. 29 was requested to kill a spider.

Miss Rose Hyman was in her bedroom when she noticed a large spider on the screen. Frightened, she called the fire department and asked that someone be sent to kill the spider.

Capt. Thomas Brock decided it was a job for the police and conveyed the message to a police station, next door. Two patrolmen were sent to the address. They captured the insect in a bottle.

## FIENDISH MURDERS ARE MYSTERY TO CLEVELAND POLICE

Six Nude Bodies, Decapitated  
and Limbs Severed, Leave  
No Clue.

Cleveland. — In September, 1935, two boys scrambled down the steep slopes of Jackass Hill near their home in Cleveland, O., and in an isolated gully they discovered the nude, decapitated bodies of two men. One of these was identified as Edward Andras, twenty-eight years old, and the other remains unidentified. They had been killed on different days.

In January, 1936, a dog barking at midnight on Cleveland's east side, attracted attention and brought police to a vacant lot near the downtown area. The nude torso and left arm of a woman were found in two bushel baskets. Finger prints of the hand identified the woman as Mrs. Florence Polla, forty-one years old. Her head was never found, although the rest of her body was discovered later in a field close by.

### Another Body Found.

Last June, two men were fishing in Kingsbury Run, a small stream near the spot where the first two bodies were found. They discovered a man's head wrapped in some clothing. The next day, his nude torso was located nearby. He was never identified.

Another nude body of a man was discovered in an isolated gully. He had been dead for three months. His head was found wrapped in a coat forty feet away. No identification was possible.

A sixth dismembered victim was found in Kingsbury Run two weeks ago. It was the body of an unidentified man. His head has not been found.

The Cleveland police see in these six murders, the systematized work of a clever fiend. All the bodies were nude, decapitated, and various limbs severed at the joints. Every trace of identification was carefully removed. All efforts of the twenty-five detectives assigned to the case have proved fruitless. No connection can be found between the crimes and any of the suspects apprehended. However, the police are still searching for a "voodoo doctor," who was arrested in 1928 and charged with a decapitation killing, but acquitted later when the victim could not be identified.

### Conference of Physicians.

Because the bodies were mutilated carefully and neatly, Coroner A. J. Pearce called together a conference of physicians, psychiatrists, and crime experts to examine every detail of the murders.

The person who beheaded the five men and the woman is believed to possess considerable surgical skill and a professional knowledge of anatomy. In one case, the head was separated from the spine at the junction of two vertebrae. The coroner claims that the hand of a surgeon would have been needed to do the job so neatly without leaving evidence of cutting. He believes the killer is a sex maniac of the sadistic type, and is probably a muscular man.

A solution of the crime seems remote to Sgt. James Hogan of the Cleveland police homicide squad. He said:

"Our chance of solving these decapitation slayings is very slight. Our only hope is for a lucky break."

### Mountain Lion's "Kisses"

#### Make Forest Guard Quit

Santa Barbara, Calif. — Gene Bushnell, King City deer hunter, is determined to convince Uncle Sam that being kissed by mountain lions as he sleeps is no part of the job for which he hired out to the forestry service. He resigned this week on discovering the soft earth floor of his tent at Vantana Peak covered with prints of huge California cats.

"My slumbers were disturbed the night through," he said. "First I was awakened by something blowing on my face. I brushed that off. Then something nudged me as if trying to share my blankets. I cuffed that off. Several times the performance was repeated."

"On becoming wide awake at day-break I find the tent floor decorated with paw prints large as hams. I can find gentler playmates than mountain lions."

### Man's Speech Restored

#### at Sight of Pretty Girl

Miskolo, Hungary. — Peter Urs, a deaf and dumb plumber of twenty, who lost speech and hearing in early childhood, went to repair the bathroom of a rich citizen. While he was working, the daughter of the house entered the room. The sight of the beautiful and richly dressed girl had an astounding effect on Urs.

"How beautiful!" he exclaimed suddenly and from that moment his speech was restored. His first coherent sentence was a marriage proposal to the girl. She has not yet given a definite reply.

### Wolf Tricks Dogs

Carthage, Mo. — Two hounds owned by Irvin Adams, local farmer, recently chased a wolf down the railroad tracks as a train approached. The wolf leaped from the tracks. The hounds did not and were killed.

## SUES CRYSTAL PLANT FOR FARM DAMAGE

Because his farm lands are being covered with the ashes and cinders from the smoke stacks of the crystal plant a short distance out of Thornedale, Alebt Seelig brought suit against the Marvel Wells Incorporated for the amount of \$20,000 in the Milam county district court here Monday.

Seelig declares that the cinders are covering his farm lands, which lie adjacent to the Marvel Wells property, and rendering it worthless. In his protest, Seelig also states that the

noises of the plant were causing his family discomfort.

The suit is still pending but will probably reach a climax today.
